

On Line Sex Shop

On line sex shops are a great way to make money for a minimal amount of work.

We configure and implement 2 different designs on off the shelf e-commerce shops. Both shops integrate with PayPal, NoChex, and various other payment processors. Both shops are multi currency.

Option 1.

- An example of this option can be seen at [SpinneyWeb](#).
- The shop in the layout as displayed would cost 500 euros, this includes:
 - 1 years hosting on our servers
 - A domain name of your choice (subject to availability)
 - Configuring to include your colour scheme, your personal or company details and setting up the first few suppliers and products for you.
- We will then provide you with an instruction sheet so that you can add the rest of your products yourself.

Option 2.

- An example of this shop can be seen at [H.264 and More](#)
- This shop can be implemented with any one of hundreds of different designs. We will give you a choice of templates to choose from.
- This option is far more flexible than option 1, and you can have far more detail pages. Ideal if you want to integrate with a photo or swingers site.
- The shop added to a new site would cost 750 euros, this includes.
 - 1 years hosting
 - A domain name of your choice (subject to availability)
 - Configuring to work with your chosen template
 - Creating the first few suppliers and products for you
 - A "Welcome" page
 - An "About Us" page
 - A "Contact Us" page
 - A "Links" page
 - Cross linking with our sites and our customer sites
 - Submission to Google, Yahoo and MSN

- We will then provide you with an instruction sheet so that you can add the rest of your products yourself.
