

## Clubs and Party Sites

Many clubs and party organisers like to know in advance who is attending their party. We arrange parties, and it was always difficult contacting everyone to let them know the dates of the next party, finding out if they wanted to attend and adding and removing them from the guestlist for the various events.

Our club site now captures all the information we need to run the party, and also gives the guests all the information they need. You can see our site in action at ddParties.

To have a similar site built would cost as follows:

- A 7 page basic site with just information - 500 Euros, this would include:
- One years purchase of a domain name for your site
- One years hosting of the site on one of our shared servers
- Submission to the big 3 search engines - Google, Yahoo and MSN
- Cross links to our sites and our customer sites
- A site in the colours you want from a choice of templates

-  
The site will consist of

- A Welcome Page
- An "About Us" page
- A page showing Party Dates / Opening Times
- A page of details about club rules etc.,
- A "Contact Us" page
- A "What's New" page
- A "Links" page
- A "FAQ" section

We can add extra pages of information for 15 Euros per page.

To add more functions costs as follows.

- the members module, which captures basic information about the members, add 50 euros
- the photo gallery, add 50 euros
- the bookings module, add 50 euros
- the guestbooks, add 50 euros
- Hot or Not module, add 50 euros
- Internal messages, add 50 euros, (allows members to write to each other)

- A Buddy connections module
